To a child, the world can seem like an uphill battle.
But to a child that's been abused, abandoned,
neglected and/or exploited, the world can almost
seem like it is out to get them.

Fortunately, you can make a world of difference when
you open your home and heart to care for a child.
Because you not only foster a child's growth and hap-
piness, you foster a brighter future for all of us.

**Give a child a future.....see how far they go.
Make a difference, become a foster parent
